- 11 When distribution is purchased only for the purpose of campus wire, no recurring or nonrecurring charges will be assessed. This does not include collocation charges or FCP placement

Exhibit A - 12-16-03 Page 13 of 14

12 The preliminary engineering and planning costs are included in the caged & cageless space construction charges. These engineering and planning charges are also included in the caged & cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time							
13 Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.							
14 Effective 8/1/03 Qwest will no longer charge for Channel Regeneration for both recurring and nonrecurring charges. Contract amendments to remove the charge is not required. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given. Future regulatory ruling and/or events may be subject to the conditions described under "Change in Law Provisions" of the SGAT (Section 2.2) or the applicable interconnection agreement.
